PILOT

NORVIEW HIGH SCHOOL
NORFOLK, VIRGINIA

VOLUME IV

"None knew thee but to love thee

RUBY VIRGINIA EDMONDS

We, the annual staff and the Senior Class of Norview High School, publish the nineteen hundred and forty-eight Pilot in loving memory of a senior who left us last August. Her kindness, love, and thoughtfulness still walk with us down the halls and into our class-rooms; her warm smile still slips into our hearts and makes our day a glad one.

As we walk down the aisle to receive our diploma we shall remember another graduation exercise and a small white clad figure quietly acting as head marshall for the Seniors of '47. We know that she will be present, in memory, at our graduation to receive a dearer diploma of remembrance and love from her classmates, friends and teachers.

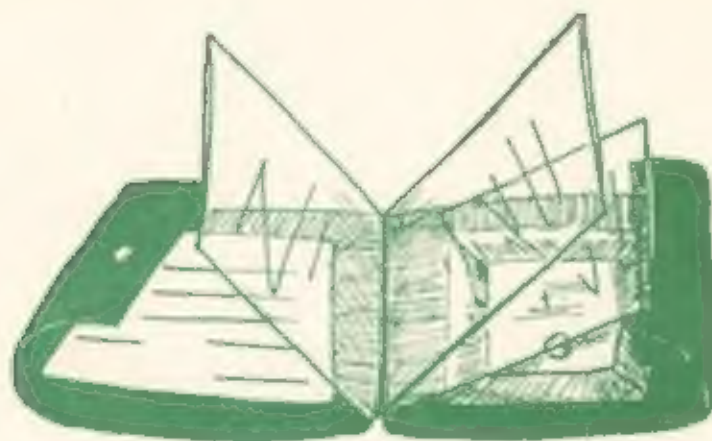

nor named thee but to praise."

RUBY VIRGINIA EDMONDS
1931-1947

Hello!

"School days, school days—" Yep, school days are just about over for another year. Would you like to go back and laugh and joke about those times when . . . ? Well, you've got a date! Since nothing is half as valuable as a photograph or two of old friends and old places, here's quite a collection taken from a typical Norviewite's wallet. Everyone keeps pictures in his or her wallet and we've tried to have them all, from that football hero to your favorite gal in this, the school wallet. Hope you like 'em! Just turn the page and begin to reminisce.

PROUDLY WE SALUTE

Miss Emily Midyette

Proudly and gratefully we dedicate the Pilot of Nineteen Hundred and Forty-eight to Miss Emily Midyette, who as a teacher taught us how to find information, as a counselor gave us sound plain advice, as a friend worked with and for us.

Remember getting your courses lined up for the year, changing one class for another? Learning how to write a composition and to enjoy Macbeth? Being absent and hearing an inquiring voice at the door? Recognizing your responsibility after a quiet, honest talk? Miss Midyette with her back to the window, calmly, straightforwardly, frankly facing it with you?

Humbly, we dedicate the Pilot to Miss Midyette.

A TEACHER, A FRIEND, A COUNSELOR

MISS EMILY MIDYETTE

WE SAW YOU WALKING DOWN

Happily, we recall the happy hours spent with our special friends before, during, and after school . . . Although we spent much of our time at the "3 R's" headquarters and working on extra-curricular activities, we found time to patronize and "pester" all those favorite hang-outs just around the corner from N. H. S. . . .

SEWELL'S POINT ROAD

"On the avenue, when I walk with you . . ." that's the way the song goes and the way we went down good ol' main street of Norview. The little stores, the big stores, all shared amounts of our love, for they were, and always will, be a part of the Norview Spirit. The bowling alley occupies our memory at one end of the street, bright with night lights and the promise of fun, with the school at the opposite end, bright with the morning sun and the promise of learning. Both were quite alike, for our friends and the atmosphere of the Norview Spirit surrounded both with an aura of young, healthy activity.

AT OUR FAVORITE HANGOUT

The hot-dog stand and drugstore offered competition when the gang poured from a school program at night . . . "The shoot 'em up" flicker at the local theatre was a spot where several romances began .

"Doc Frosty's" was a favorite for after-school "cokes" and a gab session with your chums, with a gripe or two and a praise or two about the day's events, natch . . .

AT THE "STOP" AND CHURCH ON SUNDAY

There was always a crowd hanging around the trolley stops, waiting for a car, or waiting to say "Good bye" once more to an O.A.O. . .

And then, came Sunday, when we went to our favorite church to thank Him for our youth and freedom in a young and free nation

WE STOPPED AT THE OFFICE

Lady on the Spot was Mrs Chittum. The main office was the busiest place in the school and we could always depend on Mrs Chittum being there ready to answer our questions, return our lost articles, give us directions, and lend aid whenever it was necessary

MRS. SUE K. CHITTUM, *Clerk*

OFFICE WORKERS

Dean's Office, Main Office, Assistant Principal's Office

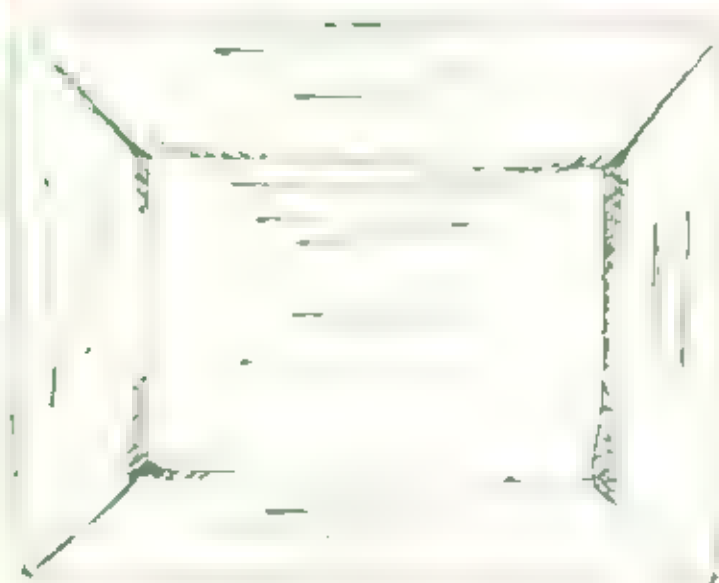

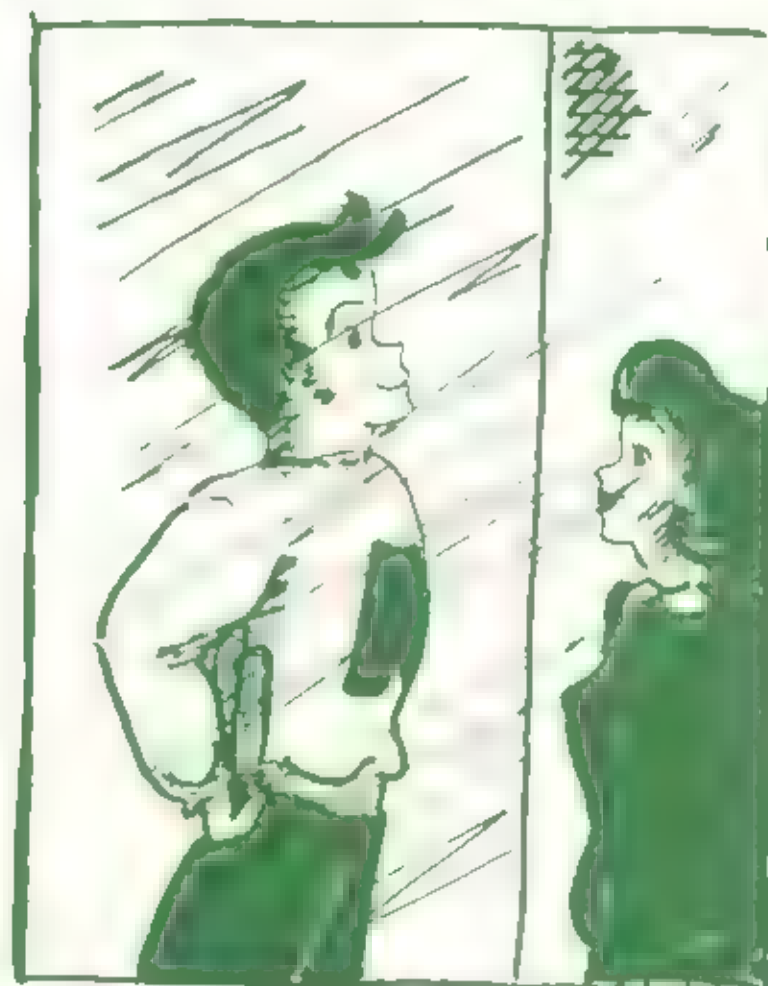

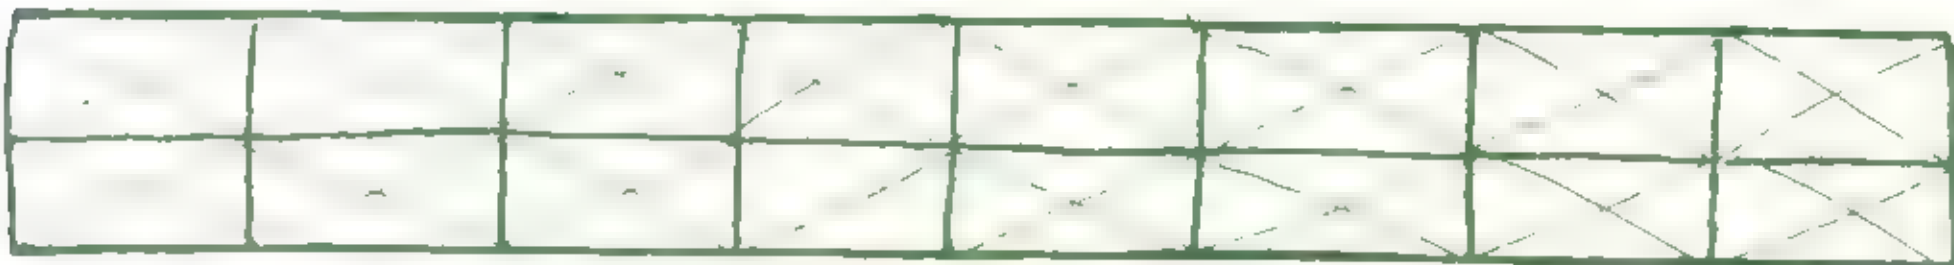

The students who worked in the offices were secretaries, file clerks, typists and messengers. They helped to keep the wheels of the school industry running

FOR HELP AND UNDERSTANDING

. dear old Norview High

The little red school house was still red, still a school house, but no longer little! It grew every year we were here and September 1947 saw the addition of vocational buildings and four temporary frame structures. However, no matter how much it grows, we will always be able to recognize it by the rectangular main building with the annex stretching out like a limb from a huge strong body.

To the left we can see our gymnasium and just back of it our stadium which we built. At the side, grows the elementary building where the first graders learn their "abc's," and across the way are two home economics cottages. The path across the green lawn, the circular drive way, the greenness of spring, the invigorating, bright autumn, the big emptiness of winter becoming a fairy land at the first snow of the year—all these combine to form a concrete picture of Norview in our minds and hearts.

Pittman

FOR HERE WE LIVED AND LOVED

The two home economics cottages lay just across the way. We learned sewing, cooking, child care, home nursing, personal care, and good manners under the guidance of capable teachers and pleasant surroundings

The elementary building teaming with "the wee-ones" housed the first through the fifth grades. Because of overcrowded conditions, the building had to do double duty and one could see a little fellow trudging in at twelve for the afternoon shift, a "ten o'clock scholar" on time!

THE BREATH OF SPRING, THE SONG OF WINTER

Our gymnasium carried a double load this year. We doubled up on physical education classes, we met there on Saturday nites for the Teen-Age Club, made it ring with cheers during basketball season and dressed it up for the "big" dances of the year

We are proudest of all of our stadium because we and the students of past years at Norview built the field which has become the site of football, baseball and softball games. Remember the first magazine you sold? Mr. Ross Wilson of the Curtis Publishing Company and Mr. George Cake of the faculty assuring us of the success of the drive? The shop boys hammering and erecting the bleachers? The huge lights that swept the fields? The first game played on our field in 1946? We planned it, we built it, we are helping it to grow!

"READIN' 'N' WRITIN' 'N' 'RITHMETIC . . .

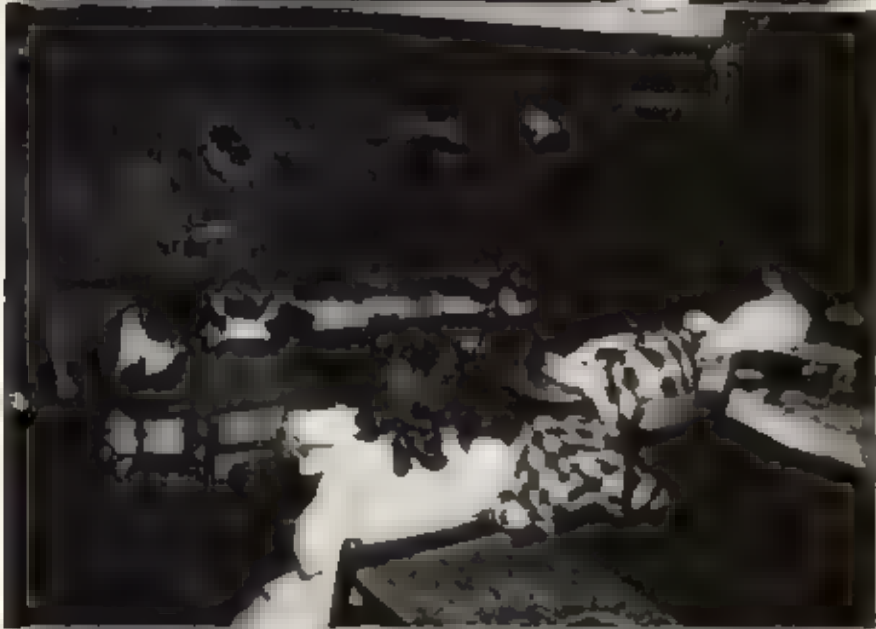

English

No more will this terror of a subject cause anxious students fearful nights. For English has just about been conquered and now students have started coming back for more. So much so, in fact, that courses in advanced grammar, dramatics, speech, and journalism are now available to the English "bugs." But then, under Miss Midyette's guiding hands, what English wouldn't be easy?

History

Gosh, history! From Cleopatra to the Truman budget, every history student gets a thorough going over in this subject. But then, dates, names, speeches are easy to remember when assigned by a nice looking teacher! Students are exposed to Civics, Ancient, American, International Affairs and American Government during the four year course offered in this department

Mathematics

These junior Einsteins have left the "time tables" far behind and now combat problems in general business, algebra, plane and solid geometry, and trigonometry. Brave people!

Languages

Amo, amas, amat . . . ever try to conjugate a latin verb. If not, maybe you've run across French or Spanish. All three are offered to Norviewites and do they love 'em!

WE WHO STUDY KNOW EVERY TRICK!

Distributive Education

These are the boys and girls who smile at you over the counters down town and this is the class that teaches the "know-how" of super salesmanship

Science

General science, biology, chemistry and physics, students are exposed to all three. Here is where they learn about and experiment with those invisible and visible things that make up our universe.

Girls Physical Education

Rain or shine, they exercise, for this subject has no regard for a new hairdo or an aching back. More than once these weary lassies have come away moaning

Boys Physical Education

One, two, three, four! Running through fifteen minutes of calisthenics on the outdoor basketball courts, then breaking up into team sports constitutes the average physical education period

SINGIN', ACTIN' AND THE MUSIC STICK

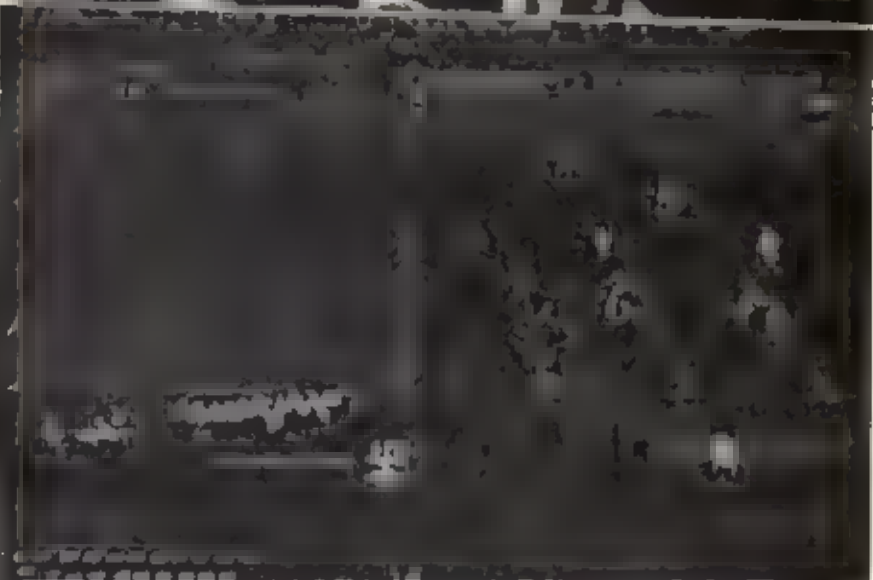

Dramatics

The future great actors of the world perhaps are being trained right in Norview! It's possible, judging from the amount of talent in the dramatics classes—such brains, such wits!

Music

These young songbirds learn everything from jazz to Bach. Called upon to sing for assembly and programs they show they've really learned their lessons

Band

Norviews Pride—the band! In the last year the band, thanks to endless practice and Mr. Duvalls' guidance, has become one of the top in the area

Art

Posters, sketches, anything for a worthy cause, plus learning color charts and art principles are just some of the art classes' achievements.

WENT HAND IN HAND WITH BROOM AND BRICK

Shop

Strictly boy's classes are the wood, metal, and the two newcomers, electric and print shops

Home Economics

Here is where the "Future Homemakers of America" learn to cook and to sew and to do all those little things that will help them when they're sending "junior" to Norview

Office Practice

Now this is the class! Where else can you receive almost real experience before actually going into an office? Wonderful practice isn't it? This new commercial course was added this year to train the students in use of office machines

Commercial

Any bell or any day you can hear those keys clicking in the typing class as these commercial students attack a lesson. Bookkeeping, shorthand and commercial law are also taught to the student who plans to be a white collar worker

WE FOUND A FACULTY THAT LED US . . .

As ye olde Alma Mater grew, the number of the faculty grew, too . . . Crickets! There were lots of new teachers, young too . . . Miss Long and Miss Motley still made the place seem home. . . . Do you think our history teacher will live to face the trials and tribulations of next year after THIS one? . . . Many times we remember how our teachers laid aside textbooks in order to help us understand a certain problem. . . . They were always ready to sponsor and to work for our organizations. . . . It's fine to have FRIENDS for teachers.

WE SAW THEM AT THE GAMES

WILLIAM ASHBY EARLY
Superintendent of Norfolk County Schools

Remember seeing our superintendent at the football games cheering our team on? And again in the gym when our boys in blue and white put the ball in the basket? Talking with our parents at Parent Teachers Association? In our halls seeing our school program in progress?

THE NORFOLK COUNTY SCHOOL BOARD

B. M. Williams, *Chairman*
Mrs. E. G. Middleton
O. P. Koch
W. H. Lowry
C. C. Gammon
C. E. Russell

Back of the superintendent was the school board whose members were seen at the school activities and whose efforts made our school system tops. We always looked for Mrs. Middleton, the member representing Tanners Creek District, at all of the schools special events. We didn't have to look long because she was always there, cheering, encouraging, and helping.

MET THEM IN THE CLASSROOMS

EDWIN W. CHITTUM, *Principal*

The office with its soft light and quiet atmosphere gave us a sense of calm reserve when we stopped by for conferences, advice, or information. Mostly, however, we remember Mr. Chittum as he quietly greeted us in the hall or on the campus. He enjoyed all of the school activities with us and was our most loyal supporter.

MR. CHARLES "BOLO" PERDUE
Assistant Principal

To most of the students he was secretly 'Bolo' and a good friend. Latecomers stopped by his office to pick up admittance slips. As coach he gave the "pigskinners" a real workout

MISS EMILY MIDYETTE
Dean

Remember getting your schedule changed and the phone ringing at home when you missed a day? Miss Midyette knew us well!

WISE COUNSELORS GAVE US HELP

MISS MARIGOLD SCOTT
Guidance Director

The guidance office was just down the hall from the main office. We slipped in there when we wanted help with planning our vocation, to get information on the colleges we wanted to attend, to find out the requirements for the special fields of work we had chosen, to get personal advice, and some times just to talk over a problem.

We had head counselors for each grade level who were ready to help us iron out difficulties.

The head counselors look over results of the testing that was carried out in the guidance program. Miss Janet Kierstead, Junior counselor; Mrs. Addie Benton, Sophomore counselor, Miss Marigold Scott, Director; Mr. James Womack, Freshman counselor; Mr. Travis Turner, Senior counselor.

The school guidance committee discussed the value of extra-curriculum activities. Seated Mrs. Addie Benton, Mrs. Thelma Park, Mrs. Margaret Allen, Miss Elizabeth Mast, Miss Emily Midyette, Miss Marigold Scott, Standing Mrs. Gladys White, Miss Janet Kierstead, Mr. James Womack, Mr. Harold Taylor, Mr. Travis Turner, Mr. Charles Perdue.

"Where's that write-up, run down the hall for the yardstick, where's what? Confusion seemed to accurately describe the annual staff as they rushed to meet that deadline. You'd find them using everything but mathematics to scale the pictures to the right proportion, writing and rewriting captions, and burning the midnight oil too frequently.

Margie Hood was usually covered with paste and pictures; Mildred Wilson was forever putting names in alphabetical order; Tom Wood and Doris Pittman were up to their ears in India ink; Jean O'Cain and Barbara Williamson could be seen either beating their brains for an idea or being overjoyed at finding one; and Percie Trahadas was almost always typing while Virginia Bailey worried about the ads. AND here it is—the finished product!

MOST USED WORD WAS WORK

The Word and Doris Pittman, co-editors, work diligently and laboriously on the design pages of the Yearbook.

Mildred Wilson, Marjorie Hood, Virginia Bailey, Buddy Roberts, Doris Pittman, Percy Trabulsi, and George Tremaine plot the nineteen forty-eight annual and discuss points of interest in other yearbooks.

If by any chance someone should stumble into room 320 at fifth or sixth bell and if the deadline were closing in, they'd never believe that a newspaper could be born in such activity. Nevertheless, just about the fifteenth of every month, the *Norview Co-Pilot* is distributed to its subscribers.

Although we like to think that the paper is read from cover to cover, perhaps the best read articles are the sports page—edited by sports editor, Bill Martin, and O'Cain's Lane. The students were really thrilled when they saw their names as *Norview Notables*.

One Day the journalism class was looking over a magazine published by a high school in Virginia. Someone said, "Why can't we have a magazine?"

So, in 1948, we decided that there was a need for a new kind of publication, a literary magazine. We started working, but we had to jump many hurdles, some of the highest ones being the small number of people who have talent for writing the types of material suitable for a literary magazine, the assembling and distributing of the stories, articles and poems; and discovering the pulse of the student body in order to represent the real spirit of our school and the creative talent of our students.

Many times we had to quit work on our new "baby" because many of our staff were also required to work on the newspaper and annual.

One day in March, Eve introduced our "brain Child" to Norview High School. We were happy as we proudly held the concrete evidence of our work and worries before us.

We named our magazine the *Norview Flight*.

FUTURE HOMEMAKERS OF AMERICA

The Norview chapter of the Future Homemakers of America assisted with activities which supported health drives in the community such as the Red Cross, Cancer Drive, and Tuberculosis and aided the Welfare Department of the county in meeting clothing and food needs of persons or families in the community. Activities in home life were carried out. Use and care of the home was stressed and clothing was made for self and family. Safety and healthful living was promoted in the home.

SPECTATORS WATCH CARTER KICK THE EXTRA POINT

action, and when the evening had ended two more touchdowns were on the scoreboard for Norview.

The next game on the list was Suffolk. Although the Pilots did not win they showed that they had the fighting spirit.

Churn scored for Suffolk in the first period and again in the second quarter. Poulson kicked the extra point.

Kalgore recovered our punt to Suffolk in the second quarter, paving the way for a touchdown. Callis picked up a good eight yards. Ore recovered his own fumble went twenty yards to carry the old pig skin over for Norview. The extra point was gained on a recovery.

There was no scoring in the second half for the Pilots, but their good defensive slackened up the haste of the aggressors.

Norview's halfback, Tad Dixon, who switched from his end position of last year to the back field this year suffered a broken collar bone. The same injury befell the opposite shoulder last year.

Norview's Pilots were forced to bow to Churchland, when the Truckers scored two touchdowns and a field goal to Norview's touchdown and extra point.

There was no score for the first half, but good defensive work showed on the part of both teams. Horton was right in there in the offensive play of the first quarter, getting two first downs and considerable gain on two other plays.

In the second quarter the game was highlighted by a brilliant field goal by Winn, from the Norview 20 yard line. Wischart scored the only point for Norview.

Mead's pass to Williams in the third quarter was good for the Churchland Trucker's touchdown. The extra point was fouled up by a fumble. Later Meads intercepted Carter's pass and carried the old leather 42 yards for a touchdown.

The final score was 15-7.

In the game against Portlock, Callis scored twice and Horton and Wade and Corbett one each. Carter kicked two extra points in the game. Morris got off a brilliant 40 yard touchdown. Raymond Horton made another but it was called back.

On October 17th the Washington and Lee football squad came to meet the Norview Pilots at the Norview stadium.

Lloyd kicked off, and Wade returned the ball to the 35. After successful gains by Lewis and Birch, the latter trampled over the goal line. Williams and Horton picked up two first

downs only to have an attempted point on the 4th down blocked and recovered on our 27 yard line. Lewis and Birch again hit the spotlight when they ran 27 yards for another Washington and Lee touchdown. Lewis scored, but the extra point was no good.

At the half the score was 13-0. Carter kicked off in the second half with Lewis returning it to their own 40. Lewis, Serwood and Johnson on runs managed to chalk up 2 first downs and then kicked to Wade who was stopped on the 27. Wischart gained seven yards on a good run but Carter was forced to kick out. Wade took Arlington's punt on his 14 yard line, but the quarter ended with him making no gains on the reverse tried. Carter again punted to Arlington.

THE COACHES WATCH

AND BY THEIR COURAGE AND STRENGTH

Lewis and Birch again chalked up another tally for the Generals. The final score, 19-0.

The Pilots played a rip roaring game against the highly favored "Farmers" of Morrison. The first quarter was marked by two touchdowns. The ball was taken to the Morrison 5 yard line. When the ball was knocked from Horton's hands, Jim Bray, end recovered it for the first touchdown. Carter kicked the extra point. On three successive runs, failing to pick up a first down, Howell attempted to punt but it was blocked by Eldrige. Jean Bray recovered the block kick and ran 35 yards for a touchdown. The first quarter ended with Norview on top 13 to 0.

Then one of Horton's runs resulted in a first down Callis and Horton gained yardage that resulted in a touchdown for the Pilots. The extra point was blocked. At the half the score was Norview 19, Morrison 0.

Petty's first pass was incomplete but the second was good for nine yards. Hen had picked up a first down, and Petty's pass to Roblins resulted in a touchdown.

Though Norview was underrated, she showed that she was unpredictable.

On November 7 Norview trounced Cradock with a score of 18 to 0. This game will long be remembered by the bunch of thrilled Norview fans that crowded the stadium to see the rivalry between these two schools begin. Early in the second Horton scored a touchdown from the Admirals 26 yard line. Later on Ore received a punt and though nearly tackled, with the positive support of the line, went charging for the goal. Later in the same quarter, Glisson made a beautiful catch of a pass from Carter and put the Pilots on Cradock's eight yard line. Carter then charged up to the third yard line setting up another touchdown for Norview. Stewart made good tackles on defense and Carter was responsible for most of the passes.

Norview must have been without it's good luck charm when the Pilots went to Alexandria to play George Washington High.

The game got under way with a bang when Hanna ran Carter's kick off back for a touchdown. Jones converted for them.

After numerous passes and first downs by both teams the Presidents added another touchdown in the second period when their right end caught a long pass. No extra point.

Battling hard the Pilots finally got the old pigskin up to the 20 yard line, but lost the ball on downs. Neither teams scored in this period. Norview's defensive was perfect. In the last period the Presidents went wild and scored four touchdowns and two extra points, all in one quarter.

The final score, 39-0. Although Norview lost the game, they showed the qualities of good sportsmanship.

Topping the season was the game with Maury.

In the early part of the second quarter Maury took the leather from the Norview 44 to a touchdown. Tugwell scored from the two yard line and Owen kicked the extra point. A bad pass from center ended up in Carter being tackled in the end zone by Daffer. Maury received a safety and two extra points. Later the ball was taken to the Maury 28, from which on the following play, Owen raced 52 yards to the Maury goal line. Owens kick was wide of the goal posts. After the kick-off Norview lost the ball again on downs and Maury scored again. The extra point was made by Hodey. It was Norview's ball on the Maury 23 at the half.

Resulting from a bad pass from center, Horton attempted to kick and was forced to fall on the ball. Maury received the ball on downs, and marched down the field for another touchdown. The point was no good.

On the first play of the fourth quarter, Horton's kick was blocked on the Norview ten, rolled into the end zones and out of bounds, giving Maury another safety.

Carter completed three passes. One to Jimmy Bray, one to Wade, and one to Horton who scored. The first touchdown scored against a group one school.

The game ended with a final score of Norview 6, Maury 42.

Under the direction of Coach Ben Cullen, the Norview Junior Varsity had a very successful season, piling up seven wins against two losses. Bobby Murrell chucked some beautiful passes which were received and carried on to the pay dirt by Cartwright, Walker, Barrett, Strong and many others. Butler and Williams played good defensive halfbacks with Benham and Yates also doing good work in the backfield. Perry, Umphlett, Burne, and Clarke helped to make the line strong.

The Jay Vees set a record to be justly proud of.

Norview's Pilots, coached by Lou Hansen played a heavy schedule in group one competition this year and came out winning all told 6 games against 14 losses.

They started off their season with a bang by edging out the Cradock Admirals 20 to 17. This was the first game of the season for both teams and put Norview on a good start for their second year of group one competition. Hobbs and Vonada with eight points were high scorers and sparked their team on to victory.

Three days later the Pilots were still going strong and trounced the South Norfolk Tigers to the tune of 39 to 33. This was the first game the two schools had played against each other since those two memorable games two years before when Norview edged them out in both games by one point. Hobbs looked good for the Pilots and led them in scoring with 11 points.

Then came that rainy day in our lives when we had our first game in Group I. Maury was our first foe and they trounced us to the melody of 52 to 29. However this was our first talter in Group I competition and we didn't feel too bad about it. This game was marked by the good floor play of Dixon and Hobbs' ball handling, the former pacing the Pilots in scoring with 10 markers to his credit.

In a heartbreaker with Hopewell High, at Hopewell, the Pilots lost by a mere point, 31

SO WE GAVE HIM A YELL

to 30. This was a tense game played hard by both teams to the finish. It was a long push shot that won the contest for the Blue Devils. Vonada topped the losers with eight points while Gurley followed close behind with six.

A return bout with the Cradock Admirals saw the Admirals come out on top with an impressive score of 42 to 18. The Cradock five forged out ahead at the end of the first quarter and never relinquished their lead through-out the rest of the game. Dixon and Gurley paced the Pilots with five points each. The hard playing and fighting spirit of Hobbs and Martinette were good for the ego of the Pilots but not quite good enough to inspire a winning rally for them.

Wilson's eagles were too good for the Pilots when they piled up 52 points to the Blue and Whites' 29 in a hard fought game against them in the Wilson gym. This was the first of two games between the two schools and the Pilots were looking forward to revenging the loss. Vonada led the losers in playing and scoring when he racked up 13 points against the victors.

The Pilots were victims of another defeat when they invaded the Granby gymnasium for their encounter. The Pilots came out on the short end of a 52 to 24 score and the eight points made by Dixon and five by Granger were not enough to ward off the onslaught.

Then the Pilots ventured to Hampton and won their first game in their conference schedule against group one competition by a score of 31 to 29. This was a real thriller and every one was up in his seat during this tense game. It was a tough game for the Crabbers to lose but a sweet victory for the Pilots.

Led by Billy Carter, and Norman Hobbs, each tallying six points apiece, the Pilots dropped another game to the Suffolk Red Raiders by a score of 37 to 23. This was a well played game.

The team played their most thrilling and one of their best games of the year when they were defeated by the Fairfax High School five in the Norview Gym. The score was a close one 41 to 40. Fairfax won by the single point in the last minutes of the game. However, the game was almost saved by the good playing of guard Billy Carter, when the Pilots were trailing by four points, dropped in a snow bird to bring the Fairfax five just 2 points ahead of them. Then he got a foul shot and made it also, bringing the Pilots within one point of the Fairfax team. This was not enough however, for the opposing team took possession of the ball after the foul shot and kept it long enough to keep the Pilots from having time to make another shot.

Norview dropped another thriller to the powerful Wilson Presidents by a score of 34 to 27 in the Pilots home gymnasium. Dixon led the losers in playing and scoring with 7 points and Vonada was right behind with 6 markers to his credit. The Pilots looked as if they were on the ball in the first quarter when they enjoyed a 6 to nothing lead at one time but the power of the Portsmouth quint was too much and they yielded the lead before the half.

Arlington defeated the Pilots on the first of two road trips made by the home team. Gurley played a good floor game as did Vonada and these two led in scoring, eight and seven points being scored by each respectively.

Norview then traveled to Fairfax where they whipped the Fairfax five and revenged an early season loss to them. The final score was Norview 40, Fairfax 35. Carter was high scorer for the victors, and really went on a scoring spree to count 15 buckets to his credit. Then Dixon was good and followed with a high total of 11 markers.

The Pilots then traveled to Hampton and lost a close game to the Peninsula quint by a close margin of 31 to 30. Dixon played a superb game and tallied 15 points with Vonada coming up behind him with 6.

The Norview quint got revenge on the Hopewell five when the other team ventured down here with their second encounter with the Pilots, for the Blue and White boys passed them by a margin of 24 to 19. This was a good game and the Pilots were neck and neck with the Hopewell team until the last minute of the game when they pulled out of danger and got a four point lead on the Blue Devils. Gurley led the Pilots with good playing and scored 12 times with Vonada doing his part scorching the hoops for 6 tallies.

Then came another crushing defeat at the hands of a group one school. Newport News defeated the Norview five 57 to 24. This was a game that had been delayed too many times before and everyone was happy to see it played off. Dixon again took the scoring burden on his shoulders and put in 9 points. Gurley was right in there though and helped his team out with 6 markers.

Dixon sank 12 counters to score almost half the points racked up against their next opponent Granby, who pasted them with a 68 to 25 defeat. Granby got away with an early game lead and racked up the highest score that was put against the Pilots all season.

Again Dixon led the Pilots to a victory when he scored 14 points and Lake Gurley tallied 12 points against the South Norfolk Tigers in the Pilots highest scoring spree of the season. The final whistle found the score board reading 50 to 34. Vonada also did his part in the scoring department when he accounted for eight points. Harry Morris came into the game in the last minute of the game and tallied two field goals in as many tries for the Pilots.

Maury defeated the Pilots 57 to 26. Vonada scored 13 points to take scoring honors for the Pilots and to lead them. Dixon was close behind with 7 markers to help him.

Newport News came over to the Pilot gym and again defeated them to the tune of 51 to 22. Harlan, wor by substitute center tallied six points to take scoring honors for the night for the Pilots. Granger scored 5 points to take runner-up scoring honors with his accurate push shots.

PIGTAILS AND LOLLIPOPS CAME BEFORE

GRADE SCHOOL

Polly Pigtails and Little Joe, you have a long road ahead of you but its practically rose strewn because of the many, many wonderful opportunities Norview can offer you. So you, who will someday be captain of the football squad, the beauty queen or president of the senior class, hold fast and make the most of your Norviewite days for the eyes of Norview are upon you.

AND GROWTH, MENTAL, PHYSICAL, AND SPIRITUAL

Sophomores dug in and worked on full schedule.

Do you remember how we disliked being called "Last year's freshmen?" . . . Yes, and we worked hard this year to earn the title "next year's juniors." . . . Planning next year's courses and deciding on our vocation kept us busy. . . We were learning how to look to the future. . . At the end of the year we collected autographs from the seniors we would not soon forget. . . Then, in June, as "settled" and older students, we looked forward to vacation and a big JUNIOR YEAR.

WE COME TO THE REALIZATION OF RESPONSIBILITY

NO LONGER "GREEN" AND NO LONGER "MICE"

"Juniors, Remember Ordering our Rings and the Junior Prom?"

Here's my class. The big thing was the Prom, remember? I don't think I'd be exaggerating if I said it was one of the very best Norview has seen. . . . We were proud that most of our class would become seniors next year. . . . We proudly hailed the students who were outstanding in scholastics, athletics, publications and leaders, as those in the S.C.A. . . We were really excited when we ordered our rings. It meant that we were almost at the "end of the trail." . . . Being a junior meant having fun and working hard and growing up. . . . It meant that we could join honorary organizations, and that, in order to accept such positions, we must learn to accept responsibilities. Why, next year we'll be SENIORS.

SURPASSED ONLY BY THE "KINGS AND QUEENS"

The seat of honor—to the seniors! A place of recognition—this is it! . . . After eleven long years (or more) the seniors are at one end of their high school road. . . . With all the underclass memories, and with so much happening in the last months, the wallet was stuffed full by June.

You'd hardly believe that the majestic seniors of today were once green frightened, stiff youngsters who swaggered down the halls as freshmen, but we were. Our's was a year when teachers came and went with regularity, the *Pilot* made its first appearance, and Geary Evans led us successfully through to our sophomore days. Our sophomore year was much better for we were old hands at this high school "business." Shirley Fleming took over when Donald Davidson, our president, was stricken by infantile paralysis. Norview acquired a newspaper and we welcomed Mr. Chittum as Principal. As upper classmen we entertained the seniors at the prom, ordered our rings and smilingly marched into our final year. The rings arrived, we sent our commencement invitations, and attended senior business. Time flew by and the days grew nearer and nearer to graduation.

With brave smiles and courageous, adventurous hearts, we accepted our diploma and turned to face the 'morrow.

AND WERE SO ACTIVE IT WAS SOMETIMES CONFUSIN'

BERNARD "*Buddy*" ROBERTS

Buddy is a fellow of great accomplishments for you saw him worried over senior cards, presiding over class meetings, happy over the arrival of rings discussing scholarships and planning graduation exercises. Never has a class so trusted their leader for he was here, there and everywhere. Every senior will remember "Buddy" forever as a classmate, leader, and good friend.

BUT UNDOUBTEDLY THEY LIVED THROUGH IT ALL

HALL OF FAME

To be Seniors is great enough honor, but to be in the Senior Hall of Fame!

The kids we knew and liked so well say that they must have been smiled upon by fate but we know better. It takes lots of school spirit to become one of Norview's famed. For instance our "Most Intellectuals" pondered earnestly on their books, even though they were very active in extra-curricula activities, too. To be called the "Best Citizen" out of a school of 1,050 is no small honor, but the same boy and girl held both positions

Just because Nature smiled fondly upon our "Best Looking" isn't the only reason they are here. Their good grooming, well maintained health and ready smiles also influenced votes

The "Most Athletic" were our high scorers and they influenced good sportsmanship, too. Physical ability and will power made a good combination.

When everything seemed to go wrong, it was swell to have the wittiest cheer us up. It seemed that they enjoyed watching people smile and be happy.

Our "Most Popular" seniors made the grade by their good naturedness, which they exhibited when they smiled and signed their names in our "PILLOI "

The "Most Original" helped us bear the monotony that sometimes "crept" through our quiet halls. To them, three cheers for inspiring talent that they certainly proved they had!

WITH THE "STRAIGHT A" GENIUSES

MOST INTELLECTUAL

DOLORES "Dot" GALLOWAY—EUGENE "Gene" OWENS

These "brain kids" won our vote not because of their book sense alone but because they had a great deal of good common sense. Gene was outstanding in the band and in his classes. Dot's ready answers, quick thinking, and good study habits marked her early as a member of the "intelligentsis".

THE MOST INFLUENTIAL FUTURE CANDIDATE
FOR PRESIDENT

BEST CITIZEN

DOLORES "Dot" GALLOWAY EUGENE "Gene" OWENS

Gene and Dot are the two Seniors we'd most like to have as our neighbors and leaders even in future years. Our S. C. A. was efficiently lead by Gene and the band was honored with his presence and ready smile. Dot served as secretary of the S. C. A. and was active in the Beta Club, a member of the Cheerleading Squad, and a guard on the Girl's Basketball Team.

THE "DREAMBOATS" WHO MADE US SWOON

BEST LOOKING

MARGARET "*Pat*" RUSSELL—HOWARD SCOTT

Vivacious "*Pat*" Russell is indicative of the excellent taste of the senior class as they selected her for "Best Looking" while Howard Scott held down the male side of the issue with ease.

THE PILOTS AND PILOTETTES WHO SCORED HIGH

MOST ATHLETIC

JOAN MIDDLEBROOKE—LEWIS "*Tad*" DIXON

We'll always remember Joan and Tad for their outstanding sportsmanship and school spirit which was quite evident in all the sports in which they participated. Tad was an all round athlete taking part in all four sports. Joan proved her athletic ability by being a member of the Cheerleading Squad as well as a first stringer on the Girl's Basketball Team.

THE GUY'AN' GAL WHO PEPPED EVERYTHING UP

MOST ORIGINAL

THERESE SCOBLIC—DONALD OLDAKER

Therese Scoblic and Donald Oldaker are certainly the "Most Original" seniors. Therese shows her original ability in three fields; dramatics, speech and journalism while Donald's artistic ability, which he displayed in the *Co Pilot* during his junior year as Art Editor, is unexcelled.

THE "DIGNIFIED SENIORS" WHO SIGNED THEIR
AUTOGRAPHS

MOST POPULAR

KITTY DIXON—GEORGE TREMAINE

George Tremaine and Kitty Dixon have justly earned the title "Most Popular" for their friends are innumerable. Who can ever forget Kitty's smile or "Tremaine's" teasing wit?

THE CLOWNS, LOVABLE AND WITTY

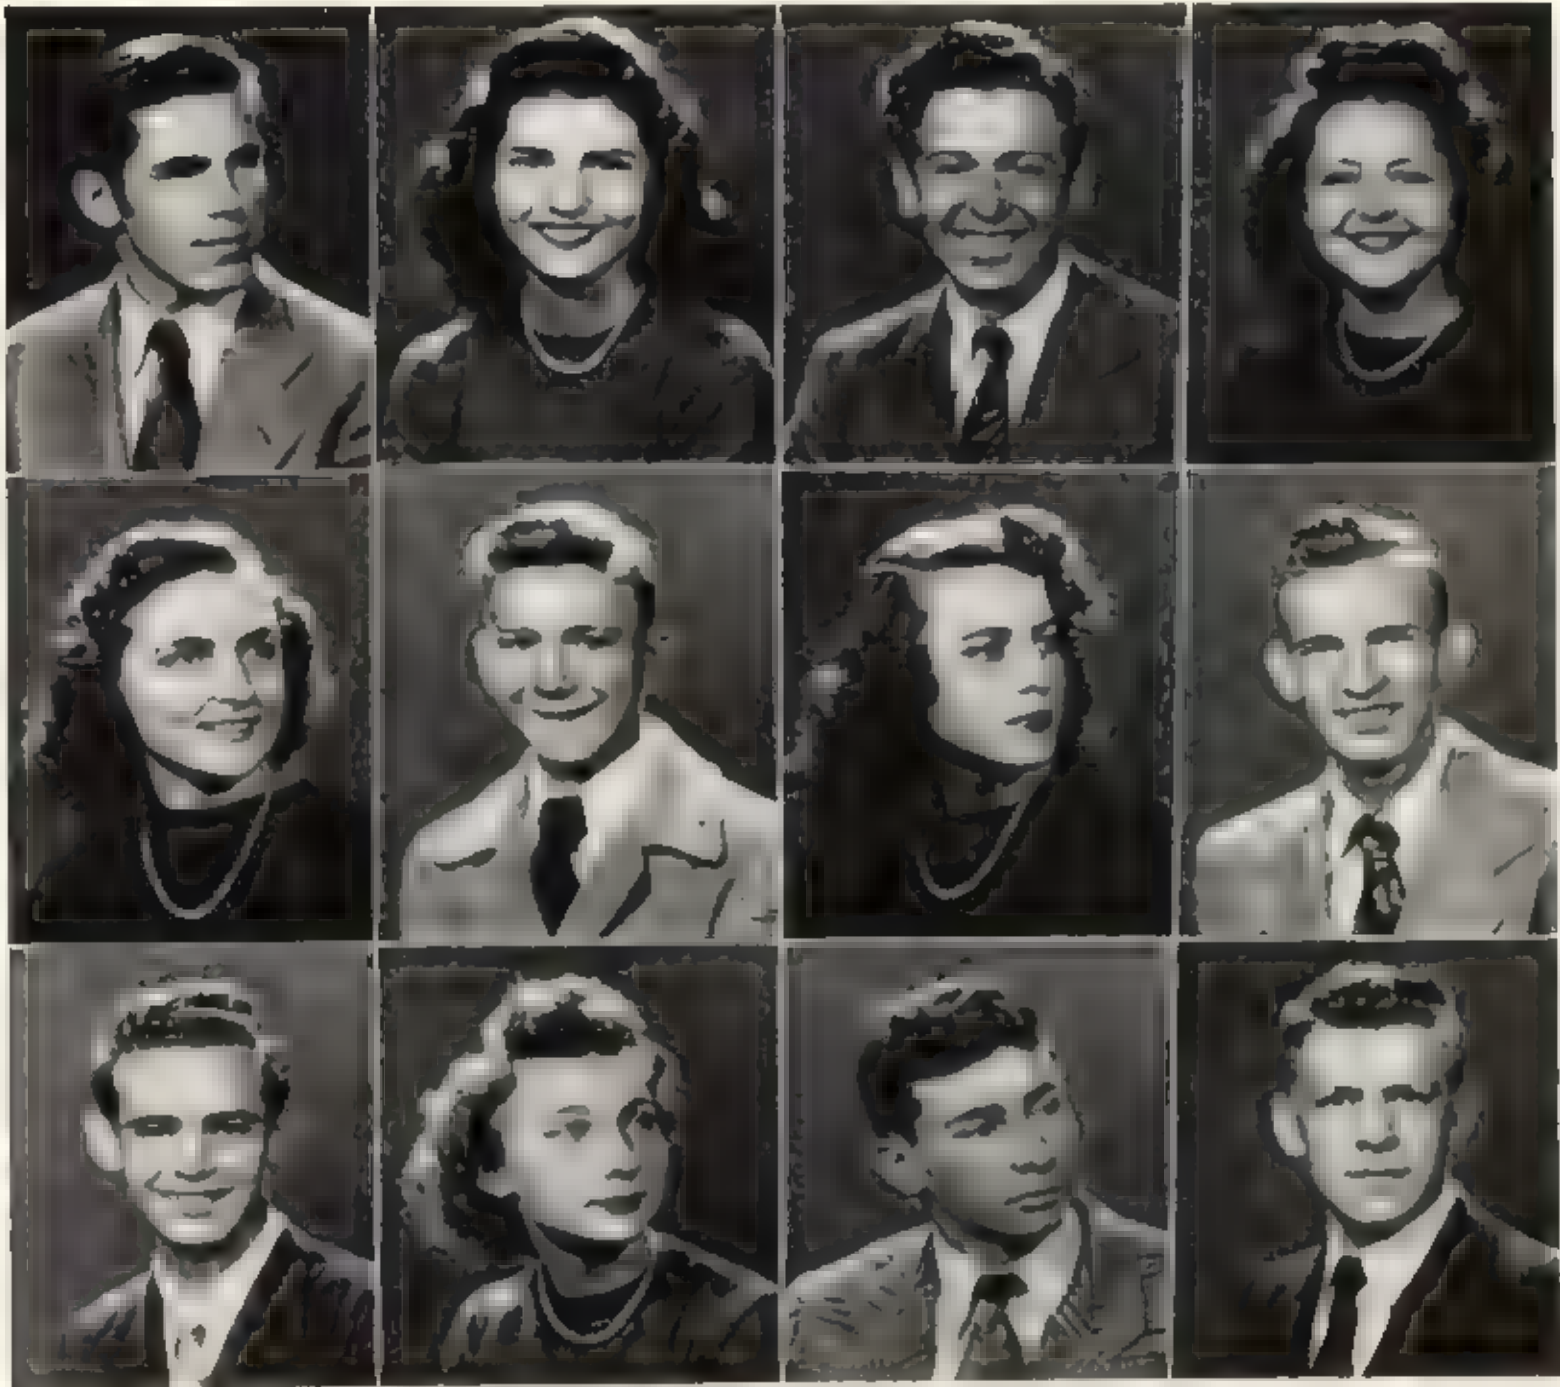

WITTIEST

IRIS MULLINS—JOHNNY SHEEHAN

Many a gal and guy still chuckle as they remember some charmed word uttered by Johnny Sheehan or Iris Mullins. So it was no wonder they were honored for their quick minds and sharp tongues with the title, "The Wittiest."

AND PROVED OUR DRAMATIC TALENT

YOU CAN'T TAKE IT WITH YOU was presented by the Senior Class on April 28 and 29. The production was directed by Senior sponsor, T. T. Turner and student director Anita Preston.

The play was a delightful modern story about a wacky family that found out how much easier it was to live and be carefree. None of them worked, and what with fire crackers, Roman candles, candy called, "love dreams," and a deluge of insane asylum and "bug" house inmates, the play was a great success. The characters were Therese Scoblic, Penny; Rachel Minton, Essie; Kitty Dixon, Reba; Kitty Litchfield, Miss Depinna; Joan Oliver, Mirian; Buddy Roberts, Grandpa; Billy Martin, Paul; Bobby Loder, Ed; Nueland Collier, Tony; Johnnie Sheehan, Mr. Kolenkhov; Gene Owens, Donald; Jake Gurley, Mr. Kirby; Lorraine Seward, Gay; Bill Downs, Ruel Davis;—G-Men

Charles Hornsby was stage and set director

A book of memories would not be complete without our advertisements. As we leaf through the following pages pleasant memories of friends and associates will come back to us. It is fitting that we end our year book with the people who patronized us that we may patronize them. Thanks again to the friends of the school who made this section of our annual possible.

Plan Now*

Of every 1,000 children entering grade school only 61 graduate from college—Why? In almost every case it's lack of money!

Industry today is looking for College Trained Men and Women—Why? Because 80% of College Men and Women make good!

FATHERS . . . Guarantee a College Education for your girl or boy . . . no matter what happens to you! The Pilot has a JUVENILE EDUCATION POLICY that will take care of the situation. You can buy this money NOW on the installment plan and immediately guarantee your child's college education, because if you become permanently disabled or die the unpaid installments are cancelled and the money will be delivered to your child on schedule.

THEY INVADED THE AIR WAVES . . .

"Pleased.... and more than a little proud!"

"That's the way I feel about my telephone job.

"It's not only the important, interesting work I do. It's the good salary, the people I meet and a lot of other things.

"I hadn't had any business experience, but I was well paid right from the start. And regular, frequent raises in pay have come as I've gained experience.

"Something else I like about telephone work is the bright, pleasant environment. The offices are so clean and comfortable. There's a roomy lounge where we can relax during off-duty hours.

"Then there's the friendly atmosphere that seems to go with a telephone job. I can hardly count all the new friends I've made since I started there.

"Just between you and me, I wouldn't trade jobs with anyone!"

**The Chesapeake & Potomac Telephone Company
of Virginia**

Sometimes it is the nature of a craft to create an unbreakable tie between itself and the worker in that field, a heart attachment equal to lifetime devotion. One familiar example is PRINTING. Once editor, once compositor, or pressman catches the spirit of the shop, the spell is seldom broken. Like the odor of a camp fire, or a whiff of salt air, the beloved tang of printer's ink, symbolical of a great profession, gets into your heart and soul. School Annuals, Magazines, Newspapers and Special Printing, all smack of it. It is an invisible link that binds all intelligence together. It is the stimulus for creation in business or romance. This craftsmanship, this devotion to service and alertness to business needs, has nourished and developed an enormous industrial vitality, and whichever way the course of the future runs, the printer will always find himself able to adapt his helpfulness to new opportunity.

Years of experience have taught us! Printing Pays Us Only When It Pays You!

... GOODBYE ...

Well folks, like all good things, this too must come to an end. But not to a real end, only an intermission, for our Seniors will continue on into another phase of their lives which will surpass that chapter just completed. Our underclassmen will enjoy more school years, yet to come. Although many of us may surpass our achievements of the past year, none will ever forget them. Each laugh and each tear has been preserved into separate jewels which we shall take from our wallet of memories to admire and treasure always.

Marjorie Hood, Editor
